HOLZWERKSTATT
GERLINGER

WE ARE HIRING NOW

CNC design and work preparation in the office (m/f/d)

Workload: 70–100% · starting now

Your tasks

You prepare the drawings and CNC programs for our 5-axis machining centre and get orders ready for the workshop and installation.

Your profile

- Training as a joiner, wood technician or technical draughtsperson
- Confident with CAD (AutoCAD, IMOS an advantage)
- Experience in CNC programming an advantage
- Precise, independent working method

What we offer

Performance bonus
Good work pays off: on top of your wage there is a performance bonus.

Monthly fuel voucher
A fuel voucher every month for your journey to work.

Tools and workwear
High-quality tools and workwear are provided by the company.

Workshop for your own projects
By arrangement, you can also use the machines and benches for your own pieces.

Gym allowance
We support you with a gym membership.

Modern machinery
Our work is built around a 5-axis CNC machining centre.

Exciting projects
Heritage conservation, yacht interiors, complete fit-outs – and assignments as far as Switzerland, the Bahamas or Saint-Tropez.

Master craftsman or technician
We support you on your way to becoming a master craftsman or wood technician.

Family atmosphere
A second-generation family business where you work independently.

About us. Over more than 35 years our joinery has earned an excellent reputation and is one of the leading training workshops for joiners in the region.
